TITLE : LEATHER-UPHOLSTERED AIR BAG COVER

ABSTRACT : PROBLEM TO BE SOLVED: To provide a leather upholstered air bag cover in which an excellent appearance in terms of design is provided while leather upholstering is facilitated for improvement in workability.

SOLUTION: A slit is formed on the inside of an air bag cover main body 4, and the slit serves as a thin breakage line consisting of a recess part 46. The upper face of the air bag cover main body 4, is upholstered with leather 50. On the inside of the leather 50, a recess part 51, is formed which is positioned on the recess part 46 on the surface side in the same position as the breakage line. The air bag cover main body 4 is covered by the leather 50 so as to be joined with it while matching the recess part 46 in the air bag cover main body 4 with the recess part 51 in the leather 50.
